About SeqLL Inc.

SeqLL Inc. ("SeqLL") is a technology company providing life sciences instrumentation and research services in collaborative partnerships aimed at the development of novel scientific assets and intellectual property across multiple "omics" fields. The Company leverages its expertise with its True Single Molecule Sequencing ("tSMS®") platform to empower scientists and researchers with improved genetic tools to better understand the molecular mechanisms of disease that is essential to the continued development of new breakthroughs in genomic medicine, and that hopefully address the critical concerns involved with today's precision medicine. In sum, our experienced team works with our collaborators to develop innovative solutions tailored to the needs of each specific project.
